

Dunmaglass wind farm Turbine delivery information Week commencing 30 May 2016

The turbine deliveries for Dunmaglass wind farm will take place between May and August 2016.

The turbine blades and tower sections will be escorted by the police and they will leave from Inverness Harbour and turn on to the A9 via the Longman Roundabout. They will then turn off the A9 on to the B851 and travel to the site entrance. The turbine nacelle is being transported by road from Holland and will also require a police escort.

The police escort will ensure the safe movement of these large delivery vehicles throughout their journey.

The following table provides details of the planned deliveries that will be police escorted for week commencing 30 May 2016:

Day	Approximate time of arrival on the B851*	Approximate time of arrival at site entrance*
Tuesday 31 st May	9.45am	11.15pm
Tuesday 31 st May	12.45pm	2.15pm
Tuesday 31 st May	4.45pm	6.15pm
Wednesday 1 st June**	4.00pm	5.30pm
Thursday 2 nd June	9.45am	11.15pm
Thursday 2 nd June	12.45pm	2.15pm
Thursday 2 nd June	4.45pm	6.15pm

* Please note these times are subject to variation at short notice and will depend on weather or traffic conditions.

**Please note this delivery is travelling from Hamilton rather than Inverness meaning it will be potentially subject to more variation than the other loads.

If you have any queries relating to these deliveries, or if you would like to be added to the project update list, please contact:
