

**Purpose**

**Providing energy  
in a reliable and sustainable way**

**Core value**

Our actions and decisions are ethical, responsible and balanced, helping to achieve environmental, social and economic well being for current and future generations.

**What we aim to do**

Be responsible to fulfil our core purpose, be consistent with our values and achieve our business goals.

**How we do it**

**Responsible  
Service Provider**

Doing more to provide essential services reliably and affordably.

**Responsible  
Operator**

Producing and delivering safe, secure and sustainable energy in the best way we can.

**Responsible  
Developer**

Seeking to impact positively on economies, communities and the environment by investing in new energy infrastructure.

**Responsible  
Employer**

Creating sustainable employment and a great place to work.

**Responsible  
Society member**

Sharing value by contributing to the societies in which SSE operates.

**Responsible  
Buyer**

Using the power of the supply chain to bring about positive social and environmental impacts.

**Foundation**

Do no harm
