Keadby II, Keadby, North Lincolnshire

Dear Sir/Madam,

Thank you for the opportunity to comment on the above application. Please find enclosed a response on behalf of Anglian Water. I would be grateful if you could confirm that you have received this response

Section 36 Consent and Deemed Planning Permission Variation

It is noted that a number of changes are proposed to the wording of the existing Section 36 consent approved by the Secretary of State in September 1993.

The majority of the proposed application site appears to be located outside of Anglian Water's area of responsibility. In addition Anglian Water is not aware of any water or wastewater requirements made upon them for the above development. Therefore we have no comments relating to the principle of this development. In the event that this were to change we would wish to comment further on the above proposals.

It is noted that the original consent including a number of conditions including condition 36 which refers to the preparation of a foul and surface water drainage scheme.

The applicant has proposed that condition 36 should be amended to refer to the Environment Agency and North Lincolnshire Council. It would be helpful if the relevant sewerage undertaker was asked to comment on the proposed schemes prior to them being discharged by North Lincolnshire Council.

Also reference is made to the 'rivers authority' in the final sentence of condition 36. It is assumed that this is a typographical error and it is intended to refer to the Environment Agency (formerly the Rivers Authority).

Should you have any queries relating to this response please let me know.

Regards,

[REDACTED]
