Subject: RE: Request for Variation of Electricity Act Consent for the Keadby II CCGT Plant
Attachments: Keadby2SiteLocationPlan.pdf; 19243-SSE-A4-4pp-Keadby-Newsletter-2-.pdf

[REDACTED], having looked at the proposal, I note this is related to changes to the technology and boundary of the CCGT Plant. There are no changes to the wind turbine elements.

As the changes solely relate to construction and infrastructure at the site, which is over 30km from our nearest site (Claxby Radar), I can confirm that NATS has no comments to make on the application.

Regards
