<b>Procurement Overview</b>
<b>RFI Reference</b>
<b>PR 5,724</b>
<b>Scope of Work</b>
The Customer seeks a provider of a fully managed Wide Area Network and Local Area Network service for business data communications to and from windfarms within Republic of Ireland and Northern Ireland. The system envisaged will provide private, multipoint, resilient WAN for IP traffic including general managed LAN, Wireless Network, VoIP and Business Critical Data Stream. Solutions must meet specific site requirements - with diverse path capability for sites and must demonstrate a proactive Network Operations Centre (NOC) support.
<b>Size / Volume / Length of Project:</b>
The member expects suppliers will be able to fulfil it's requirements at all sites across the locations in NI and ROI.
<b>Anticipated Project / Contract Duration:</b>
Proposed three year Framework with options to extend based upon satisfactory service and sourcing strategy.
<b>Proposed Strategy:</b>
Suppliers shall be selected for further pre-qualification from those compliant and registered for Level 3 EC contracts under 2.40.11 – IT Network Services (WAN Services) OR UVDB verified under 2.1.11 – IT Network Services (WAN Services).
<b>Proposed Form of Contract</b>
Form of Contract to be confirmed. Any resultant Agreement entered into shall be governed under Irish law.
<b>Contract / Framework Agreement</b>
The intention of the Authority is to make an Agreement between the Authority and the successful Supplier(s).
